# NEW ENGLAND COUNTY METROPOLITAN AREAS AND COUNTIES

---

# INTRODUCTION

---

This volume, the third edition of the *State and Metropolitan Area Data Book* (SMADB), presents a wide variety of information on States and metropolitan areas in the United States. The statistics represent the most up-to-date facts available, usually as of the late summer and early fall of 1985. Among the latest statistics to be included in this book are 1985 population estimates and 1983 Annual Survey of Manufactures results for States. Data from the 1982 economic and governments censuses are featured in this report.

The data presented come from nearly 50 Federal and private agencies and include the following:

**Federal agencies**

- Bureau of the Census
- Bureau of Economic Analysis
- Bureau of Labor Statistics
- Bureau of Mines
- Department of the Treasury
- Economic Research Service
- Energy Information Administration
- Federal Bureau of Investigation
- Federal Deposit Insurance Corporation
- Federal Highway Administration
- Federal Home Loan Bank Board
- Food and Nutrition Service
- Health Care Financing Administration
- Internal Revenue Service
- National Center for Education Statistics
- National Center for Health Statistics
- National Forest Service
- National Highway Traffic Safety Administration
- National Institute of Mental Health
- National Oceanic and Atmospheric Administration
- National Park Service
- National Science Foundation
- Rehabilitation Services Administration
- Social Security Administration
- Soil Conservation Service
- Statistical Reporting Service
- Unemployment and Training Administration

**Non-Federal agencies**

- Alan Guttmacher Institute
- American Council of Life Insurance
- American Dental Association
- American Hospital Association

- American Medical Association
- Board of Governors of the Federal Reserve System
- Credit Union National Association
- Dun & Bradstreet
- Elections Research Center
- Independent Petroleum Association of America
- Joint Committee on Printing
- McGraw Hill Information Systems Company
- National Association of Home Builders
- National Association of State Park Directors
- National Council of Savings Institutions
- National Education Association
- R.L. Polk & Co.
- The Foundation Center
- University of Minnesota

The source for each item of data is cited in the "Source Notes and Explanations," beginning on page 631.

**Metropolitan areas.**—Data for metropolitan areas are for metropolitan statistical areas (MSA's) defined as of October 12, 1984, by the Office of Management and Budget. The MSA concept is slightly different from the standard metropolitan statistical area (SMSA) concept employed in the previous SMADB's and other statistical publications. One difference is that large metropolitan areas may be subdivided into major components known as primary metropolitan statistical areas (PMSA's), whereupon the overall area becomes known as a consolidated metropolitan statistical area (CMSA). In this book, data for PMSA's are presented underneath data for the CMSA of which they are a part. (For further information, see "Geographic Concepts and Codes," beginning on page 625.) This book also groups together the presentation of MSA's by State rather than in the conventional alphabetic presentation by area title alone.

In most of the Nation, MSA's, CMSA's, and PMSA's have been defined in terms of whole counties; and most of the metropolitan-area data in this volume have been generated by adding together data originally available by county. In New England, MSA's are defined in terms of cities and towns. Since most of the data sources used for this volume do not include data for New England towns, we have instead presented data in the main tables for New England County Metropolitan Areas (NECMA's). The more limited set of data available for the official MSA's in New England, only from the 1980 Census of Population and Housing, are presented in an appendix.

**Tables.**—Tables A and B present data for metropolitan areas sequenced by State, table A featuring county components and

table B presenting central cities. Table C presents data for States only. Many more items of data are presented for States than for metropolitan areas (1,873 vs. 298) because (1) more types of data are available for whole States than are available for counties and other small areas, and (2) 18 times as many pages are required to present the same data for all metropolitan areas and county components as are required for only the 50 States and the District of Columbia. The detail available for central cities in table B is substantially less than for metropolitan areas and county components (86 vs. 298) largely because fewer data sources include city detail than county detail.

To assist in interpreting the statistics presented, explanatory text is included for geographic concepts and codes and for the content of each table, along with source notes. In addition, supplemental information is provided in the appendixes.

**Rankings and values.**—For all MSA's and PMSA's, values and rankings are presented in alphabetical order. For 12 variables, the top metropolitan areas are presented in rank order.

**Diskettes and tapes.**—For further analysis, these data can be obtained in computerized form: On flexible diskette for IBM PC-compatible microcomputers and on computer tape for larger computers. A related product on tape, County Statistics File 2 (CO-STAT 2), presents for all counties the data presented here only for metropolitan counties. For more information on these products, call (301) 763-1034 or write to the Chief, Statistical Compendia Staff, Data User Services Division, U.S. Bureau of the Census, Washington, DC 20233.

**Related publications.**—The SMADB is a supplement to the *Statistical Abstract of the United States*, which presents an even broader range of data. Though the *Abstract* presents most data only at the national level, it also features significant detail also available for States. Since the *Abstract* is updated annually, future editions will provide a number of State figures that update those presented here. Another supplement to the *Abstract* is the *County and City Data Book*, most recently issued for 1983, with many of these same data presented for all counties, for cities with 25,000 or more inhabitants, and, to a lesser extent, for other places with at least 2,500 inhabitants.

# HELPFUL HINTS FOR FINDING INFORMATION

---

**Metropolitan areas.**—Data for MSA's, CMSA's, and PMSA's outside New England and for NECMA's inside New England are found in table A, along with the counties comprising each area. Data are presented for 298 items on 20 consecutive pages for each of the 18 sets of areas. The Alphabetical Listing of Metropolitan Areas (pages V-IX) presents the starting page number for the 20 pages presenting data for each area.

In table A, metropolitan areas are grouped by State (in alphabetic order), along with totals for the State, all metropolitan counties, and all nonmetropolitan counties in the State. The totals for all metropolitan counties will not agree with the sum of the metropolitan areas listed beneath the State total wherever a metropolitan area crosses a State line. Data for multistate metropolitan areas appear only once in table A, under the State of the central city named first in the MSA title. For example, data for Duluth-Superior, MN-WI MSA is shown under Minnesota while the set to data for Wisconsin includes only a cross-reference to data for this MSA under Minnesota.

Data for PMSA's are grouped under the CMSA's of which they are components in tables A and B. For an alphabetical listing of PMSA's, along with their parent CMSA's, see appendix 2.

For New England, data are shown in tables A and B only for the NECMA's and their components. For data for New England MSA's, see appendix 3. "Geographic Concepts and Codes," page 625, discusses the concept, history, terminology, and standards for metropolitan areas.

**Central cities of MSA's.**—Data for the central cities of metropolitan areas are found in table B. Data are presented for 86 of the items covered in table A. The central cities are listed within MSA's arranged alphabetically within State by MSA title or CMSA. If you know the name of a central city but do not know the MSA in which it is located, see appendix 4 for the MSA/CMSA code.

**Counties.**—Data for metropolitan counties are found in table A. If you know the name of a county but do not know the MSA in which it is located, see appendix 5 for the MSA/CMSA code.

**Maps.**—For States, regions, and divisions, see the inside of the front cover. For MSA's, CMSA's, and PMSA's, see pages XVI and XVII.

For NECMA's, see page XVIII. The MSA map includes three MSA's designated after the cutoff date for the areas in this publication: Cheyenne, WY; Jackson, TN; and Rapid City, SD. No data for these MSA's are included here. A wall-size component to this map, series GE-50, No. 82, is available from the Government Printing Office (SN 003-024-06342-5, price \$2.50).

**Contents of tables.**—Outlines of tables A and B begin on page X. An alphabetic index to the items in table C begins on page 693.

**Symbols and terms.**—See page XXIII.

**Summary results of user questionnaire.**—Some copies of the 1982 edition of the SMADB included a user questionnaire. For results of responses to the questionnaire, see page XXII.

**Guidelines for establishing metropolitan areas.**—See page 626.

**Introduction.**—This section provides general information about the book and gives basic information about obtaining data products. It also points out the items that are included for the first time in this volume.

**Descriptions of the data.**—For source agencies and details on how the data were obtained, what the data cover, limitations of the data, and other descriptions of the data items, see "Source Notes and Explanations," beginning on page 631.

**Appendixes.**—Appendix 1 shows metropolitan area concepts and components. Appendix 2 shows the relationship between CMSA's and PMSA's. Appendix 3 presents data for the New England MSA's, CMSA's, and PMSA's. Appendix 4 is an alphabetical listing of central cities, with codes for the MSA/CMSA in which the central cities are located. Appendix 5 is an alphabetical listing of metropolitan counties, with codes for the MSA, CMSA, or NECMA in which the counties are located. For an alphabetical listing of MSA, CMSA, PMSA, and NECMA codes, population, and the beginning page numbers for the areas, see pages V-IX.

# SUMMARY OF MAIN RESULTS OF 1982 USER SURVEY

---

In the 1982 edition of the SMADB, a user questionnaire was inserted into approximately 10,000 copies, which represent the first of four printings. These copies were available for sale starting in November 1982. As of February 1984, 1,915 questionnaires were returned. These questionnaires were coded and tabulated and the results analyzed while preliminary planning work was being performed for this edition of the book. As a result of the analysis, several modifications were introduced, both in style and content, based on respondents' answers to questions concerning how they use the publication and their geographic and subject areas of interest. The following highlights the main findings of the user survey and indicates some ways this edition attempts to accommodate them.

## A) Change in presentation

**Finding.**—Seventy-one percent of all respondents had a high degree of interest in metropolitan-area data; and well over half of all respondents use data for many areas as opposed to using data for only their own particular city, county, metropolitan area, or State. Modification: The previous two editions of the SMADB presented data for metropolitan areas in alphabetic sequence of the MSA title. Thus, a user needed to know the title of each metropolitan area in which he or she was interested. This edition features a State-by-State presentation. Each metropolitan area is listed alphabetically under the State in which it is located. We believe this will aid users in finding a particular metropolitan area and, at the same time, facilitate comparisons of metropolitan areas, especially within States. Meanwhile, users interested in only one metropolitan area will not be inconvenienced.

## B) Change in content

**Assumption.**—For each geographic level for which data are presented—States, metropolitan areas and component counties, and central cities—we calculated the percent of

respondents interested in each subject area. These subject areas were then arranged in rank order by degree of interest. We started with the premise that the subjects in which readers reported the greatest interest generally deserved more detail in this edition than those subjects in which lesser interest was expressed.

**Finding—States.**—High reader interest in three areas—population, income, and manufactures—led us to increase the number of data items in these areas. On the other hand, as a result of the substantially lower level of interest expressed in social programs and elections, these areas have received somewhat less emphasis in this edition.

**Finding—metropolitan areas and component counties.**—Respondents' high level of interest in income data for metropolitan areas has led to the inclusion of more detail in this book. On the other hand, data presentation for health items was cut back when it became evident that interest in that area was relatively low. Five items were introduced on transportation, a subject area not covered for metropolitan areas in the previous edition.

**Finding—central cities.**—For this geographic area, two subject areas were of interest to users—income and education—for which no data were presented in the 1982 edition because 1980 census data were not available at the time. Consequently, in this edition, the central-cities table presents two data items on education and six on income from the 1980 census. We have also expanded the number of data items on business.

We wish to thank everyone who participated in the 1982 user survey and hope the changes introduced in this edition are helpful. Any comments or suggestions you may have for improving data coverage and presentation for future editions of the *State and Metropolitan Area Data Book* should be sent to the Chief, Statistical Compendia Staff, Data User Services Division, U.S. Bureau of the Census, Washington, DC 20233.

# EXPLANATION OF SYMBOLS AND TERMS

---

The following symbols are used in this volume:

- Represents zero.
- B Base figure too small to meet statistical standards for reliability of derived figure.
- D Figure withheld to avoid disclosure of information pertaining to a specific organization or individual.
- NA Data not enumerated, tabulated, or otherwise available separately.
- S Figure suppressed; does not meet publication standards for reasons other than that covered by symbol B or D, above.
- X Figure not applicable because column heading and stub line make an entry impossible, absurd, or meaningless.
- Z Rounds to less than half the unit of measure shown.

The following terms are also used throughout this publication:

An **average** is a number or value that is used to represent the "typical value" of a group of numbers. It is regarded as a measure of "location" or "central tendency" of a group of numbers.

The **arithmetic mean** is an average derived by summing the individual item values of a particular group and dividing the total by the number of items, e.g., average number of persons per household. It is often referred to simply as the "mean" or "average."

The **median** of a group is the middle number or value when each item in the group is arranged according to size, e.g., median number of rooms per year-round housing unit. It generally has the same number of items above it and below it.

A **rate** is a quantity or amount of an item measured in relation to a number of units of another item, e.g., the number of births per 1,000 persons. The birth rate is obtained by dividing the number of births for a given year by the population as of a specified date and multiplying the result by 1,000.

**Per capita** is a rate per individual, e.g., per capita direct general expenditure.

An **average annual percent change**, as presented in this publication, is computed by the use of a compound interest formula. This formula assumes that the rate of change is constant throughout a specified compounding period (1 year for average annual rates of change). The formula is similar to that used to compute the balance of a savings account that receives compound interest. According to this formula, at the end of a compounding period, the amount of accrued change (e.g., school enrollment or bank interest) is added to the amount that existed at the beginning of the period. As a result, over time (e.g., with each year or quarter), the same rate of change is applied to a larger and larger figure.

The **exponential formula**, which is based on continuous compounding, is often used to measure population change. It is preferred by population experts because they view population and population-related subjects as changing without interruption, ever ongoing. Both exponential and compound interest formulas assume a constant rate of change. The former, however, applies the amount of change continuously to the base rather than at the end of each compounding period.

When the average annual rates are small (e.g., less than 5 percent), both formulas give virtually the same results. For an explanation of these two formulas as they relate to population, see U.S. Bureau of the Census, *Materials of Demography*, vol. 2, third printing (rev.), 1975, pp. 372-381.

**Use of percents in place of absolute figures.**—The figures for many subject items are presented in percentage form. In most cases where this occurs, the items on which the percents are based are shown in absolute or primary form (actual counts or dollars). This enables the user to convert the percents to actual figures by a simple computation.

Although percents in themselves are often more revealing analytically than the actual figures that they reflect, the decision to use percents in place of absolute figures for a particular item or group of items was primarily a practical one. A percent figure requires less space (usually four-digit places, including one for the decimal) than an absolute figure (usually five to nine digits). The space saved thereby enables additional subject items to be shown.

TABLE A:

# Metropolitan Areas

(For explanation of symbols, see page XXIII)

**NOTE:**

Table A presents data for the United States, States, and metropolitan areas and their component counties. The metropolitan areas covered are metropolitan statistical areas (MSA's), consolidated metropolitan statistical areas (CMSA's), primary metropolitan statistical areas (PMSA's), and New England county metropolitan areas (NECMA's). The areas are presented in alphabetical order by State, by metropolitan area within State, and by county within metropolitan area. PMSA's are presented in alphabetical order within their parent CMSA. Metropolitan and nonmetropolitan totals are shown following the U.S. and State totals.

Data are presented for 298 items in 18 sets of 20 pages each. All 298 items are presented for the areas included in a given set before the table continues on to the next group of areas. FIPS codes for metropolitan areas and States and counties are shown in the first two columns of the first page within each set.

For an alphabetical listing of metropolitan counties presented in this volume with the code for their metropolitan area, see appendix 5.

†MSA's and PMSA's whose October 1984 definition is the same as an SMSA defined as of June 1981. Titles and central cities vary in some cases. <sup>1</sup>Data are placed by postal address. <sup>2</sup>Includes dependents of retired and disabled workers and other types of beneficiaries not shown separately. <sup>3</sup>Excludes dependents. <sup>4</sup>Includes parents. <sup>5</sup>Per 1,000 resident population estimated as of July 1.

# Table A. Metropolitan Areas Public Aid and Journey to Work

[MSA = Metropolitan statistical area. CMSA = Consolidated MSA. PMSA = Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table; see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA]

†MSA's and PMSA's whose October 1984 definition is the same as an SMSA defined as of June 1981. Titles and central cities vary in some cases. <sup>1</sup>Based on resident population estimated as of July 1, 1982.

**Table A. Metropolitan Areas  
Manufactures**

[MSA = Metropolitan statistical area. CMSA = Consolidated MSA. PMSA = Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table; see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA]

†MSA's and PMSA's whose October 1984 definition is the same as an SMSA defined as of June 1981. Titles and central cities vary in some cases. <sup>1</sup>Persons 5 years old and over. <sup>2</sup>Persons 18 years old and over. <sup>3</sup>Householder living alone. <sup>4</sup>Per 1,000 resident population estimated as of July 1. <sup>5</sup>Data are for county where marriage license was issued and marriage certificate was filed, not necessarily county where marriage occurred. <sup>6</sup>Includes legal separations

Table A. Metropolitan Areas  
Births and Deaths

[MSA = Metropolitan statistical area. CMSA = Consolidated MSA. PMSA = Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table; see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA]

<sup>1</sup>MSA's and PMSA's whose October 1984 definition is the same as an SMSA defined as of June 1981. Titles and central cities vary in some cases. <sup>2</sup>Data on serious crimes have not been adjusted for underreporting, this may affect comparability among geographic areas and over time. <sup>3</sup>Per 100,000 resident population estimated as of July 1 for 1983 and 1982 and enumerated as of April 1 for 1980. <sup>4</sup>Includes burglary, larceny-theft, and motor vehicle theft. <sup>5</sup>Includes murder and non-negligent manslaughter, forcible rape, robbery, and aggravated assault.

Table A. Metropolitan Areas  
Housing

[MSA = Metropolitan statistical area. CMSA = Consolidated MSA. PMSA = Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table, see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA.]

Titles and central cities vary in some cases. <sup>1</sup>Percent of total civilian labor force <sup>2</sup>For week including March 12 Excludes government employees, self-employed persons, farm workers, domestic service workers, railroad employees subject to the Railroad Retirement Act, and employees on oceanborne vessels or in foreign countries. <sup>3</sup>Includes insurance and real estate.

# Table A. Metropolitan Areas Employment and Federal Funds and Grants

[MSA = Metropolitan statistical area. CMSA = Consolidated MSA. PMSA = Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table; see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA]

†MSA's and PMSA's whose October 1984 definition is the same as an SMSA defined as of June 1981. Titles and central cities vary in some cases. <sup>1</sup>Includes other kinds of businesses, not shown separately. <sup>2</sup>Includes mobile home dealers. <sup>3</sup>Includes equipment stores. <sup>4</sup>For pay period including March 12.

Table A. Metropolitan Areas  
Service Industries, Banking, and Elections

[MSA = Metropolitan statistical area. CMSA = Consolidated MSA. PMSA = Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table, see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA]

Public Aid and Journey to Work**

[MSA — Metropolitan statistical area. CMSA — Consolidated MSA. PMSA — Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table, see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA.]

**Table A. Metropolitan Areas  
Wholesale and Retail Trade**

[MSA = Metropolitan statistical area CMSA = Consolidated MSA PMSA = Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table; see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA]

†MSA's and PMSA's whose October 1984 definition is the same as an SMSA defined as of June 1981. Titles and central cities vary in some cases. <sup>1</sup>Dry land or land temporarily or partially covered by water. <sup>2</sup>Based on 275 areas (17 CMSA's, 243 MSA's, and 15 NECMA's); see text for more information.

Table A. Metropolitan Areas  
Population Characteristics

[MSA = Metropolitan statistical area. CMSA = Consolidated MSA. PMSA = Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table; see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA]

<sup>1</sup>MSA's and PMSA's whose October 1984 definition is the same as an SMSA defined as of June 1981. Titles and central cities vary in some cases. <sup>2</sup>Includes the children and one or both parents, or caretaker relative other than a parent, in families where the needs of such adults were considered in determining the amount of assistance. <sup>3</sup>Covers workers 16 years old and over. <sup>4</sup>Number of persons working in county divided by the number of resident workers in the county who reported place of work. <sup>5</sup>Includes bus or streetcar, subway or elevated train, railroad, and taxicab.

**Table A. Metropolitan Areas  
Serious Crimes and Housing Units Authorized**

[MSA = Metropolitan statistical area, CMSA = Consolidated MSA, PMSA = Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table, see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA.]

†MSA's and PMSA's whose October 1984 definition is the same as an SMSA defined as of June 1981. Titles and central cities vary in some cases. <sup>1</sup>Data on serious crimes have not been adjusted for underreporting; this may affect comparability among geographic areas and over time. <sup>2</sup>Per 100,000 resident population estimated as of July 1 for 1983 and 1982 and enumerated as of April 1 for 1980. <sup>3</sup>Includes burglary, larceny-theft, and motor vehicle theft. <sup>4</sup>Includes murder and non-negligent manslaughter, forcible rape, robbery, and aggravated assault. <sup>5</sup>Includes data not distributed by county.

**Table A. Metropolitan Areas  
Personal Income**

(MSA = Metropolitan statistical area. CMSA = Consolidated MSA. PMSA = Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table; see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA.)

†MSA's and PMSA's whose October 1984 definition is the same as an SMSA defined as of June 1981. Titles and central cities vary in some cases. <sup>1</sup>Includes insurance and real estate. <sup>2</sup>Includes earnings from farm, agricultural services, forestry, fisheries, and other, mining, construction, and transportation and public utilities. <sup>3</sup>Based on resident population estimated as of July 1 for 1983 and enumerated as of April 1 for 1980. <sup>4</sup>Based on 275 areas (17 CMSA's, 243 MSA's, and 15 NECMA's); see text on population rank for more information. <sup>5</sup>Earnings for industry less than \$50,000.

**Table A. Metropolitan Areas  
Civilian Labor Force and Employment**

[MSA = Metropolitan statistical area. CMSA = Consolidated MSA. PMSA = Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table, see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA.]

†MSA's and PMSA's whose October 1984 definition is the same as a SMSA defined as of June 1981. Titles and central cities vary in some cases. <sup>1</sup>Based on resident population estimated as of July 1, 1982.

# Table A. Metropolitan Areas Manufactures

[MSA = Metropolitan statistical area. CMSA = Consolidated MSA. PMSA = Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table; see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA]

†MSA's and PMSA's whose October 1984 definition is the same as an SMSA defined as of June 1981. Titles and central cities vary in some cases. <sup>1</sup>Persons 5 years old and over. <sup>2</sup>Persons 18 years old and over. <sup>3</sup>Householder living alone. <sup>4</sup>Per 1,000 resident population estimated as of July 1. <sup>5</sup>Includes data not distributed by county. <sup>6</sup>Includes divorce petitions filed for some counties.

**Table A. Metropolitan Areas  
Births and Deaths**

[MSA = Metropolitan statistical area. CMSA = Consolidated MSA. PMSA = Primary MSA. Data for New England county metropolitan areas (NECMA's); not New England MSA's are presented in this table, see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA.]

<sup>1</sup>MSA's and PMSA's whose October 1984 definition is the same as an SMSA defined as of June 1981. Titles and central cities vary in some cases. <sup>2</sup>Data on serious crimes have not been adjusted for underreporting; this may affect comparability among geographic areas and over time. <sup>3</sup>Per 100,000 resident population estimated as of July 1 for 1983 and 1982 and enumerated as of April 1 for 1980. <sup>4</sup>Includes burglary, larceny-theft, and motor vehicle theft. <sup>5</sup>Includes murder and non-negligent manslaughter, forcible rape, robbery, and aggravated assault.

**Table A. Metropolitan Areas  
Housing**

[MSA = Metropolitan statistical area CMSA = Consolidated MSA PMSA = Primary MSA Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table; see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA]

†MSA's and PMSA's whose October 1984 definition is the same as an SMSA defined as of June 1981. Titles and central cities vary in some cases. <sup>1</sup>Includes insurance and real estate. <sup>2</sup>Includes earnings from farm, agricultural services, forestry, fisheries, and other mining, construction, and transportation and public utilities. <sup>3</sup>Based on resident population estimated as of July 1 for 1983 and enumerated as of April 1 for 1980. <sup>4</sup>Based on 275 areas (17 CMSA's, 243 MSA's, and 15 NECMA's); see text on population rank for more information

**Table A. Metropolitan Areas  
Civilian Labor Force and Employment**

[MSA - Metropolitan statistical area CMSA - Consolidated MSA. PMSA - Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table, see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984 See appendix 2 for alphabetic listing of PMSA's with parent CMSA]

†MSA's and PMSA's whose October 1984 definition is the same as an SMSA defined as of June 1981. Titles and central cities vary in some cases. <sup>1</sup>Based on resident population estimated as of July 1, 1982.

# Table A. Metropolitan Areas Manufactures

[MSA = Metropolitan statistical area. CMSA = Consolidated MSA. PMSA = Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table; see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA]

Titles and central cities vary in some cases. <sup>1</sup>Persons 5 years old and over. <sup>2</sup>Persons 18 years old and over. <sup>3</sup>Householder living alone. <sup>4</sup>Per 1,000 resident population estimated as of July 1. <sup>5</sup>Includes data not distributed by county. <sup>6</sup>Incomplete. <sup>7</sup>Incomplete; includes data not distributed by county.

# Table A. Metropolitan Areas Births and Deaths

[MSA = Metropolitan statistical area. CMSA = Consolidated MSA. PMSA = Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table; see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA]

†MSA's and PMSA's whose October 1984 definition is the same as an SMSA defined as of June 1981. Titles and central cities vary in some cases. <sup>1</sup>Data on serious crimes have not been adjusted for underreporting, this may affect comparability among geographic areas and over time. <sup>2</sup>Per 100,000 resident population estimated as of July 1 for 1983 and 1982 and enumerated as of April 1 for 1980. <sup>3</sup>Includes burglary, larceny-theft, and motor vehicle theft. <sup>4</sup>Includes murder and non-negligent manslaughter, forcible rape, robbery, and aggravated assault.

†MSA's and PMSA's whose October 1984 definition is the same as an SMSA defined as of June 1981. Titles and central cities vary in some cases. <sup>1</sup>Persons 25 years old and over. <sup>2</sup>Based on resident population estimated as of July 1, 1984 for 1983 and enumerated as of April 1, 1980 and 1970 for 1979 and 1969, respectively. <sup>3</sup>Based on 275 areas (17 CMSA's, 243 MSA's, and 15 NECMA's); see text on population rank for more information. <sup>4</sup>See text for deflators used.

**Table A. Metropolitan Areas  
Personal Income**

[MSA = Metropolitan statistical area. CMSA = Consolidated MSA. PMSA = Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table, see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA]

†MSA's and PMSA's whose October 1984 definition is the same as an SMSA defined as of June 1981. Titles and central cities vary in some cases. <sup>1</sup>Dry land or land temporarily or partially covered by water. <sup>2</sup>Based on 275 areas (17 CMSA's, 243 MSA's, and 15 NECMA's); see text for more information.

Table A. Metropolitan Areas  
Population Characteristics

[MSA = Metropolitan statistical area. CMSA = Consolidated MSA. PMSA = Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table; see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA]

1 MSA's and PMSA's whose October 1984 definition is the same as an MSA defined as of June 1981. Titles and central cities vary in some cases. <sup>2</sup>Per 1,000 resident population estimated as of July 1 for 1982 and 1975, and enumerated as of April 1 for 1980 and 1970. <sup>3</sup>Deaths of infants under 1 year old.

# Table A. Metropolitan Areas Deaths, Physicians, and Nursing Homes

[MSA = Metropolitan statistical area CMSA = Consolidated MSA PMSA = Primary MSA Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table, see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984 See appendix 2 for alphabetic listing of PMSA's with parent CMSA]

<sup>1</sup>MSA's and PMSA's whose October 1984 definition is the same as an SMSA defined as of June 1981. Titles and central cities vary in some cases. <sup>2</sup>Data on serious crimes have not been adjusted for underreporting, this may affect comparability among geographic areas and over time. <sup>3</sup>Per 100,000 resident population estimated as of July 1 for 1983 and 1982 and enumerated as of April 1 for 1980. <sup>4</sup>Includes burglary, larceny-theft, and motor vehicle theft. <sup>5</sup>Includes murder and non-negligent manslaughter, forcible rape, robbery, and aggravated assault. <sup>6</sup>Includes data not distributed by county.

†MSA's and PMSA's whose October 1984 definition is the same as an SMSA defined as of June 1981. Titles and central cities vary in some cases. <sup>1</sup>Percent of total civilian labor force. <sup>2</sup>For week including March 12. Excludes government employees, self-employed persons, farm workers, domestic service workers, railroad employees subject to the Railroad Retirement Act, and employees on oceanborne vessels or in foreign countries. <sup>3</sup>Includes insurance and real estate. <sup>4</sup>100-249 employees. <sup>5</sup>Excludes county showing employment range. <sup>6</sup>250-499 employees.

Table A. Metropolitan Areas  
Employment and Federal Funds and Grants

[MSA = Metropolitan statistical area. CMSA = Consolidated MSA. PMSA = Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table; see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA]

FARGO-MOORHEAD, ND-MN MSA (see data under ND)																		

<sup>1</sup>MSA's and PMSA's whose October 1984 definition is the same as an SMSA defined as of June 1981. Titles and central cities vary in some cases. <sup>2</sup>Includes the children and one or both parents, or caretaker relative other than a parent, in families where the needs of such adults were considered in determining the amount of assistance. <sup>3</sup>Covers workers 16 years old and over. <sup>4</sup>Number of persons working in county divided by the number of resident workers in the county who reported place of work. <sup>5</sup>Includes bus or streetcar, subway or elevated train, railroad, and taxicab.

# Table A. Metropolitan Areas Serious Crimes and Housing Units Authorized

[MSA — Metropolitan statistical area. CMSA — Consolidated MSA. PMSA = Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table, see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA]

†MSA's and PMSA's whose October 1984 definition is the same as an SMSA defined as of June 1981. Titles and central cities vary in some cases. <sup>1</sup>Persons 25 years old and over. <sup>2</sup>Based on resident population estimated as of July 1, 1984 for 1983 and enumerated as of April 1, 1980 and 1970 for 1979 and 1969, respectively. <sup>3</sup>Based on 275 areas (17 CMSA's, 243 MSA's, and 15 NECMA's); see text on population rank for more information. <sup>4</sup>See text for deflators used.

# Table A. Metropolitan Areas Personal Income

[MSA = Metropolitan statistical area. CMSA = Consolidated MSA. PMSA = Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table; see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA.]

†MSA's and PMSA's whose October 1984 definition is the same as an SMSA defined as of June 1981. Titles and central cities vary in some cases. <sup>1</sup>Dry land or land temporarily or partially covered by water. <sup>2</sup>Based on 275 areas (17 CMSA's, 243 MSA's, and 15 NECMA's); see text for more information.

**Table A. Metropolitan Areas  
Population Characteristics**

[MSA = Metropolitan statistical area. CMSA = Consolidated MSA. PMSA = Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table; see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA]

†MSA's and PMSA's whose October 1984 definition is the same as an SMSA defined as of June 1981. Titles and central cities vary in some cases. <sup>1</sup>Data are placed by postal address. <sup>2</sup>Includes dependents of retired and disabled workers and other types of beneficiaries not shown separately. <sup>3</sup>Excludes dependents. <sup>4</sup>Includes parents. <sup>5</sup>Per 1,000 resident population estimated as of July 1

**Table A. Metropolitan Areas  
Public Aid and Journey to Work**

[MSA = Metropolitan statistical area. CMSA = Consolidated MSA. PMSA = Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table; see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA]

# Table A. Metropolitan Areas Wholesale and Retail Trade

[MSA - Metropolitan statistical area. CMSA - Consolidated MSA. PMSA - Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table, see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA]

†MSA's and PMSA's whose October 1984 definition is the same as an SMSA defined as of June 1981. Titles and central cities vary in some cases. ‡Excludes parts of Litchfield and New Haven Counties in CT, which represent less than one percent of the total CMSA population. \*Dry land or land temporarily or partially covered by water. †Based on 275 areas (17 CMSA's, 243 MSA's, and 15 NECMA's); see text for more information.

Table A. Metropolitan Areas  
Population Characteristics

[MSA = Metropolitan statistical area. CMSA = Consolidated MSA. PMSA = Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table, see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA.]

†MSA's and PMSA's whose October 1984 definition is the same as an SMSA defined as of June 1981. Titles and central cities vary in some cases. ‡Excludes parts of Litchfield and New Haven Counties in CT, which represent less than one percent of the total CMSA population.  
¹Per 1,000 resident population estimated as of July 1 for 1982 and 1975 and enumerated as of April 1 for 1980 and 1970. ²Deaths of infants under 1 year old.

# Table A. Metropolitan Areas Deaths, Physicians, and Nursing Homes

[MSA = Metropolitan statistical area CMSA = Consolidated MSA. PMSA = Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table; see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA]

†MSA's and PMSA's whose October 1984 definition is the same as an SMSA defined as of June 1981. Titles and central cities vary in some cases. ‡Excludes parts of Litchfield and New Haven Counties in CT, which represent less than one percent of the total CMSA population. <sup>1</sup>Per 1,000 resident population estimated as of July 1 for 1982 and 1975 and enumerated as of April 1 for 1980 and 1970. <sup>2</sup>Per 100,000 resident population estimated as of July 1 for 1982 and enumerated as of April 1 for 1970. <sup>3</sup>Deaths of infants under 1 year old per 1,000 live births. <sup>4</sup>Deaths with stated or presumed period of gestation of 20 weeks or more per 1,000 live births. <sup>5</sup>As of end of year. Data subject to copyright; see source citation. <sup>6</sup>Covers only nursing homes with 25 or more beds.

Table A. Metropolitan Areas  
Hospitals and Health Insurance (Medicare)

[MSA = Metropolitan statistical area. CMSA = Consolidated MSA. PMSA = Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table; see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984 See appendix 2 for alphabetic listing of PMSA's with parent CMSA]

<sup>1</sup>MSA's and PMSA's whose October 1984 definition is the same as an SMSA defined as of June 1981. Titles and central cities vary in some cases. <sup>2</sup>Excludes parts of Litchfield and New Haven Counties in CT, which represent less than one percent of the total CMSA population. <sup>3</sup>Includes the children and one or both parents, or caretaker relative other than a parent, in families where the needs of such adults were considered in determining the amount of assistance. <sup>4</sup>Covers workers

# Table A. Metropolitan Areas Serious Crimes and Housing Units Authorized

[MSA — Metropolitan statistical area. CMSA — Consolidated MSA. PMSA — Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table, see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA.]

†MSA's and PMSA's whose October 1984 definition is the same as a SMSA defined as of June 1981. Titles and central cities vary in some cases. ‡Excludes parts of Litchfield and New Haven Counties in CT, which represent less than one percent of the total CMSA population. <sup>1</sup>Includes insurance and real estate. <sup>2</sup>Includes earnings from farm, agricultural services, forestry, fisheries, and other, mining, construction, and transportation and public utilities. <sup>3</sup>Based on resident population estimated as of July 1 for 1983 and enumerated as of April 1 for 1980. <sup>4</sup>Based on 275 areas (17 CMSA's, 243 MSA's, and 15 NECMA's); see text on population rank for more information.

# Table A. Metropolitan Areas Civilian Labor Force and Employment

[MSA = Metropolitan statistical area. CMSA = Consolidated MSA. PMSA = Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table; see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA]

<sup>1</sup>MSA's and PMSA's whose October 1984 definition is the same as an SMSA defined as of June 1981. Titles and central cities vary in some cases. <sup>†</sup>Excludes parts of Litchfield and New Haven Counties in CT, which represent less than one percent of the total CMSA population. <sup>1</sup>Based on resident population estimated as of July 1, 1982. <sup>2</sup>Bronx, New York, Queens, and Richmond Counties included with Kings County

†MSA's and PMSA's whose October 1984 definition is the same as an SMSA defined as of June 1981. Titles and central cities vary in some cases. ‡Excludes parts of Litchfield and New Haven Counties in CT, which represent less than one percent of the total CMSA population. §Includes other kinds of businesses, not shown separately. ¶Includes mobile home dealers. ¶Includes equipment stores. ¶For pay period including March 12.

**Table A. Metropolitan Areas  
Service Industries, Banking, and Elections**

[MSA = Metropolitan statistical area. CMSA = Consolidated MSA. PMSA = Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table; see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA.]

<sup>1</sup>MSA's and PMSA's whose October 1984 definition is the same as an SMSA defined as of June 1981. Titles and central cities vary in some cases. <sup>2</sup>Persons 5 years old and over. <sup>3</sup>Persons 18 years old and over. <sup>4</sup>Householder living alone. <sup>5</sup>Per 1,000 resident population estimated as of July 1. <sup>6</sup>Data are for county where marriage license was issued and marriage certificate was filed, not necessarily county where marriage occurred. <sup>7</sup>Incomplete.

**Table A. Metropolitan Areas  
Births and Deaths**

[MSA = Metropolitan statistical area. CMSA = Consolidated MSA. PMSA = Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table; see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA]

Table A. Metropolitan Areas  
Social Security and Public Aid

[MSA — Metropolitan statistical area. CMSA = Consolidated MSA. PMSA = Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table, see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA.]

**Table A. Metropolitan Areas  
Education and Money Income**

[MSA = Metropolitan statistical area. CMSA = Consolidated MSA. PMSA = Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table, see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA]

†MSA's and PMSA's whose October 1984 definition is the same as an SMSA defined as of June 1981. Titles and central cities vary in some cases. <sup>1</sup>For week including March 12. Excludes government employees, self-employed persons, farm workers, domestic service workers, railroad employees subject to the Railroad Retirement Act, and employees on oceanborne vessels or in foreign countries. <sup>2</sup>Civilian <sup>3</sup>Fiscal year data <sup>4</sup>Includes other obligations <sup>5</sup>Based on resident population estimated as of July 1, 1984. <sup>6</sup>Per 10,000 resident population estimated as of July 1, 1982

**Table A. Metropolitan Areas  
Local Government Finances**

[MSA = Metropolitan statistical area. CMSA = Consolidated MSA. PMSA = Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table, see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA]

<sup>1</sup>MSA's and PMSA's whose October 1984 definition is the same as an SMSA defined as of June 1981. Titles and central cities vary in some cases. <sup>2</sup>For pay period including March 12. <sup>3</sup>Based on resident population estimated as of July 1.

Table A. Metropolitan Areas  
Retail Trade

[MSA = Metropolitan statistical area. CMSA = Consolidated MSA. PMSA = Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table; see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA]

†MSA's and PMSA's whose October 1984 definition is the same as an SMSA defined as of June 1981. Titles and central cities vary in some cases. <sup>1</sup>Includes other kinds of businesses, not shown separately. <sup>2</sup>Based on 275 areas (17 CMSA's, 243 MSA's, and 15 NECMA's); see text on population rank for more information. <sup>3</sup>Includes such services as auto parking, car or truck rental, leasing, etc. <sup>4</sup>Includes motion pictures. <sup>5</sup>Includes deposits for all insured and noninsured commercial and mutual savings banks. <sup>6</sup>Excludes public deposits. <sup>7</sup>Comprised of savings and other time deposits. <sup>8</sup>FSLIC-insured. <sup>9</sup>Data subject to copyright; see source citation.

**Table A. Metropolitan Areas  
Area and Population**

(MSA = Metropolitan statistical area. CMSA = Consolidated MSA. PMSA = Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table; see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA.)

Births and Deaths

[MSA = Metropolitan statistical area. CMSA = Consolidated MSA. PMSA = Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table, see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA.]
